WILL COMPLY.

There has been a report on the go about Mr. Sterling that the Mt. Sterling Water, Ice, Gas and Electric plant Co. would not complete the stand pipe in accord with their contract. That our people may be at rest on this matter, we would say it would be very foolish in a corporation to agree and then to violate agreement. First, they know before they enter into an agreement and second to ask for a change would weaken confidence, both as to financing capacity and competency as to making an agreement. The Water Company has a contract and we may rest sure it will be complied with to the letter. Yet all men bear watching, and if they are in good faith they will invite it.

TO WORK.

A few business men who are interested in the welfare of Mt. Sterling should organize themselves into a Commercial Club, a Men's Club or something of the kind, whose business it shall be to promote the interest of Mt. Sterling, this and nothing more.

DON'T REPEAT.

We have the June number of the Georgetownian. The matter is good enough, but that's all. Georgetown College deserves better. Cheap fabrics, poor workmanship and amateur artists make a cheap appearance.

AUTOMATIC FLAGMEN.

New Device for Avoiding Accident Near Railway Stations.

With a view to preventing accidents at level crossings in the neighborhood of railway stations, a very ingenious mechanism has recently been tried in France. It consists essentially of a huge hook or catch, made of iron, which is connected with a lever at the station by means of a wire, through which a current of electricity passes. When it is lying in its place the train passes over it quite easily, but as soon as it is raised it catches a lever which is attached to the engine. The lever thus caught causes an air valve on the engine to open at once, so that the whole train is brought to a standstill within a very short distance. In foggy weather the use of such an apparatus cannot be over estimated, as it is calculated to prevent a train running into another which happens to be delayed at a station.

Japanese Dentists.

The Japanese dentists perform all their operations in tooth-drawing with the thumb and forefinger of one hand. The skill necessary to do this is acquired only after long practice, but when once it is obtained the operator is able to extract half a dozen teeth in about 30 seconds, without once removing his fingers from the patient's mouth.

A Word for the Boy.

If a boy holds the screen door open long enough to get out, all the women in the house yell to him about flies, but a woman caller can hold it open an hour, and her hostess will look pleasant.—Athenian Globe.

Omar Fratman Killed.

Omar Fratman went out from White Sulphur Springs, Bath county, with a young Ohio man by the name of Oldham. Somehow, when the gun was in range with Fratman it went off, striking Fratman just over the heart and he expired almost instantly. He was well known here, where for years he held a position in the Monarch Milling Company.

THE BRITISH SOLDIER.

Not So Well Paid as the American—Passions Grated.

The British soldier receives a shilling a day; the United States soldier nine pence. The American soldier has better rations, but Tommy Atkins has a more liberal allowance for clothing. In other respects, says W. E. Curtis, in the Chicago Record-Herald, the conditions are about the same, except that the British government pays pensions only to those who are entirely disabled by wounds or sickness. With all her wars the pension list of Great Britain is not one-fourth as large as that of the United States. The annual appropriation of our congress for pensions would support the whole British army.

You see retired soldiers employed in various capacities. They are given preference in business houses. They are used by the district messenger companies and receive certain privileges and considerations from the police and the municipal authorities that are not granted to ordinary people. It is common for bank messengers, janitors of buildings, private watchmen and other men engaged in light employment to wear military medals of honor which are always accepted as a good recommendation. You see news stands and fruit stands at the street corners and in the parks attended by men with similar decorations, or with empty coat sleeves, and such privileges are esteemed of great value.

THE DEADLY MAUVACA SNAKE.

Its Bite Renders the Victim Speechless and Ends Fatal.

A tragedy comes from Troncones, Nicaragua, in the state of Vera Cruz, of a horse-back excursion, in which one of the party was fatally bitten by a snake known as mauvaca, says the Mexican Herald.

The victim, D. Gregorio Flores y Foglia, accompanied by a party of friends, had been passing the day in the country, and was returning to Troncones. In riding through some undergrowth which reached well up on the horse's sides the beast ridden by Mr. Flores y Foglia sprang suddenly into the air and then stood still, trembling violently. His companions, seeing from the rider's face that something was wrong, started to go to him, but their horses refused to proceed, showing absolute terror. Meanwhile Mr. Flores y Foglia, who seemed unable to speak, fell from his horse, making signs to his friends in the direction of something in the underbrush, where, to their horror, they saw an enormous snake making off through the bushes. The injured man, who had let his speech, communicated to his companions that at the moment their horses refused to approach the snake was still wound about his leg, having just bitten him. He was removed to his home, but in spite of everything that could be done for his relief, he died a few hours later.

SUMMER COON.

Lickschillet, Jamville, Ky.

A big time with the Elks in our city a few nights ago. Halls and hotels made a grand display a long the decoration line. There were five thousand bolts of different colored paper rapped and twisted a round about the hotels. Olde Taylor cut a big figure. Only for Olde Taylor the big Elk meeting in our city would of bin a total failure to outsiders. Its no use in kicking on Olde Taylor; there ant nothing that

can be gotten up and carried out successfully with out a big supply of Bug Juice. That is why we people up here in Lickschillet are so stuck on that grate sole savor. I hope he will soon get all of our other good thinkers in line with his way of thinking in regard to selc saving. His vews on puting the world on a religious base has bin mine all the time. I never did belave the churches of the world would be able to capture all the soles of men and wimen until things wer fixed and adopted to suite all classes of thinking and belaveng people. I have bin reading one of those Summer Bibles and I cant finde no place where it condems a man or woman for having a little pleisure in this life, such as dancing and drinking if you like it. The Summer bible says we unto him or her that forces themselves to do things that the don't want to do. I notice in one place in particular in my Summer Bible where Olde Taylor says eat drink and be mery while you are down there for I will make you think you had struck a hornets nest when I get you in my clutches. The onley and shure way to reform men and wimen is to let them have there one way bout this dancing and Bug Juice business. how much sweeter a young couple looks in a bal room shaking there mud hooks if there is no holes in there sox then tha would look in a church pulc lising to a good olde time broad gace preacher. my, my, jest think of it. what in the world is the people a going to do if tha set a couald and let the women eat up all the long green tobaker in the trust. if you want to see a industry of people take a trip to frankfort and let george Everett and John Puch who you thru the State con box. mine ant patchen.

I seen the honorable Henry wattson take the train for Morehead this morning. he had a small grip, tho I dont no what it contained, it might of bin lightning. Ben franklin us to Bottle up liecing. I am told this are barreling linc. In now. well redem dont get excited the papers say there is a warn wame coming, so prepare your selves with plenty of ice and calaty water. mr editer how is politticks going to be down there this fall there going to be eny thing in it if so let me know. I all ways take a hand in politticks when theres eny thing in it. I dont requir no big amount to make me intersted in the wel far of our law framers. we havent much in mney up here, but we have the Banns to handle eny amount of religion if their is plenty of bug Juice mixed with it. evry thing goes mowr days if well backed with calaty water and as squar as a pistol.

"The Land of the Sky."

Europe may have her Switzerland, the West its Colorado, the Pacific coast may glory in her Sierra Nevada, and British Columbia in her Cascade range, but nowhere on the face of the earth is there a region more picturequely, more charmingly beautiful than the mountain country of western North Carolina, poetically known as "The Land of the Sky." It is true there are mountains of greater elevation in each of the localities named, but the greatest canvases in the gallery of art are not the choicest gems, nor is the beauty of nature to be measured on geodetic lines. Where the mountain ranges of the West are rugged, barren and forbidding, those in Western North Carolina are robed in deep-hued forests to their highest summits. Where the greater peaks of the Sierra Nevada frown, those of "The Land of the Sky" smile through banks of Rhododendrons and azaleas. Where the valleys of the one are rocky and impassable gorges, in the other they are fern-carpeted forest labyrinth, through which crystal streams tumble merrily along over moss-green rocks in their race to the open.

Picture in your mind a region where range after range of heavily forested mountains parallel each other like waves of the sea, where interlocking valleys are rich with verdure and flowers, and where silver streams murmur unceasingly. Imagine an air so light and pure that breathing itself seems a new-found joy; then throw over all a canopy of bluest of Italian blue, and you have "The Land of the Sky."

This rugged mountain region embraces the extreme western portion of North Carolina and the eastern edge of Tennessee. Within these confines are several districts alike in their general features, but each having distinct charms and advantages peculiarly its own. The one most generally visited has Asheville for its tourist center.

None the less beautiful, however, is that country in and about Blowing Rock and Grandfather's Mountain, of which Lenoir is the entrepot. Southeast of Asheville are the Flat Rock, Tryon and Sapphire regions, which attract many visitors because of the charming environments. Southwest of Asheville, and between that city and Murphy, is the Balsam Mountain country, wild, solitary and Swiss-like, with the Haywood Sulphur Springs as the chief tourist rendezvous. Over to the west, and near the Tennessee line, is the less rugged, but more picturesquely beautiful, territory in and about the Hot Springs, while almost due north from here and across the Tennessee line looms up, in the majesty of its towering height, Roan Mountain, crowned by a hotel, the highest building east of Colorado, and a favorite summer gathering place for people from near and far. Taken as a whole, no similar area on the western continent compares with "The Land of the Sky" in beauty or sublimity. In square miles it is the equal of Switzerland. In attractiveness, accessibility and health it is its rival.

The Southern Railway, which brings "The Land of the Sky" within easy reach, approaches it from all directions of the compass. From St. Louis daily sleeping cars are operated direct to Asheville, which is an all-the-year-round resort, thus putting St. Louis tourists into that beautiful region with only one night on the road.—Globe-Democrat, St. Louis, July 14, 1901.

FACTS and OBSERVATIONS

From the tunnel he walked most of the way, about 4 miles, to Caney, talking with gangs of men at work on the roads and with citizens. We reached the Day House after sundown. How soon the road will be built from its present terminus to town (probably 1 1/2 or 1 3/4 miles) can not be told.

COAL.

Some canal coal has been mined but the principal work has been the opening of entries. We were informed by the superintendent of mines, Mr. A. C. Morris, that when the work was under full head about 300 to 400 people would be employed. The average thickness of the coal is said to be about 28 inches, and the deposit is said to cover about 3,000 acres.

The Walnut Grove Herald is the name of the village paper now being engineered by J. P. Haney. It had appeared three times under present name and management.

The editor with Mr. Stephenson is attending to real estate business and several "corner" lots have changed hands at increased prices. Consideration for the feelings of many of our readers in Mt. Sterling and other towns caused us to say but little about "corner lots" and lots on the principal avenues as far out as 17th street and "just across the avenue from the park" the iron foundry and machine shops, or great university" and we must add from the dynamite mine. We may be excused for saying that the fools are not all dead yet, and that by some plausible scheme or another the many, blinded by the glitter of promised wealth, will be caught.

We are your friend when we advise you to be cautious. A day of reckoning and collapse will come. We are expecting considerable development in mining and timber lands around Caney and along the new railroad.

Mr. F. Haney, the contractor and builder, will no doubt be kept busy. The building of the road has given employment to men of teams. The wages have been \$1.25 to \$1.50 per day, or \$3 for a team.

We left town on Thursday afternoon. At the tunnel we took train. Stopped for the night at Mt. Hampton's. He was away from home. He had sold to Chicago gentlemen certain timber on a tract of about 2,000 acres for \$10,000. Preparations are now being made to market the lumber. Montrie Bros. are in charge of the mill. Here we met Mr. J. B. Thompson, of Jackson, who is employed by the owners.

Desiring to catch the train to Jackson, which left the camp at 4 o'clock a. m., we were called at 2:30 o'clock for a horseback ride of 3 1/2 miles to the camp.

The conductor told us to be there at 4 o'clock. We were there at 3:42, and were disappointed to learn that the train had left at 4:02. A boy on a gray mule was our guide, and we rode a gray, bay horse (observe they were bay). The morning stars sang joy but we did not observe that the trees clapped their hands. The whippoorwill and several bull-

frogs completed the chorus as onward we jogged. Boy had returned and there we were. We tarried until about 6 o'clock, hoping to get a velocipede. Failing, we walked to Frozen Creek, about 2 1/2 miles, having a promise that the train would stop there at about 10 o'clock. The train whistled after 11 o'clock, we walked out, but somebody had forgotten and the train dashed by. Left again. We enjoyed our breakfast at the noon hour and waited developments as no other train was to go to Jackson till Saturday.

Mr. Murphy, manager in chief of a hand car and section force, took us on. The were only 17 men on that hand car. The writer was on one end of a plank balanced by a man on other end. Thus four men rode. We rested in the shadow of a cliff at the mouth of the tunnel at the intersection of the roads below Jackson, fanned by the current through the tunnel. We flagged the train west and reached home at 7 p. m. These facts are incident in the life of an editor pushing his business and coming in contact with the people. We thank the people enroute for kindness and courtesies shown.

In the railroad office at Frozen Creek we had met Mr. M. D. Conley and his assistant, Mr. Johnson, State Senator from Louisiana, Ky. Mr. Conley used to be at the head of affairs and is a much worked man. It was he who had both bones of his leg broken by a rock falling on him. He spent some months in a Lexington hospital, was pronounced cured and discharged. He knew that he was not cured, went to Cincinnati and was examined. An x-ray picture showed that both bones were still broken and lapped 1 1/2 inches. (We saw the picture.) Another operation was necessary, followed by long confinement in hospital. He now uses crutches, and will probably do so for a long time.

Good Record.

The trotting at Detroit last week was a little inclined to be sensational. Eleata by Dexter Prince won the \$10,000 M. and M. Stake, with Country J., a Kentucky entry, second. Iva Doe, driven by Dug Thomas, was second in the last heat in 2:08 1/2. Borlino was the 2:08 class trot but had to reduce his record to 2:07 1/2 to win. Betty G. won the 2:06 pace in straight heats, fastest being 2:05 1/2. From the way also won the race this former pupil of Dug Thomas is a great mare again this year. In the free-for-all pace some very fast time was made. Coney won first heat in 2:02, but Anaconda won the race by taking the next two heats in 2:02 1/2 and 2:03 1/2. In free-for-all trot there were but two entries, Cresceus and Charlie Herr. Cresceus was much the best horse in this race and trotted away from Herr. The heats were trotted in 2:04 1/2 and 2:05 1/2, which is the fastest heat ever trotted in a race, Directum having trotted some years ago in 2:05 1/2. It looks as if Cresceus might take the trotting record this season. Charlie Herr is a slow horse to get on edge and he will likely be heard from later in the season.

The next Annual Exhibition of the Shelby county fair, one of the oldest and without exception the best county fair in Kentucky will hold its 1901 meeting, beginning August 27 and continue four days. The Floral Hall is made the more beautiful each successive year. The horse, mule, jack, swine and cattle show is not surpassed anywhere on the globe. The trotting is interesting, and order people. There are no more hospitable people on the globe than are in Shelby county and every man, woman or child who goes for pleasure will not be disappointed.

Reteree.

Judge Cochran, of the Federal Court at Covington, has divided the Eastern Kentucky District into thirteen bankruptcy districts. A. T. Wood was appointed referee for this district.

A Parable.

Behold an advertiser went forth to sow. And when he sowed, some seed fell into handbills and dodgers, and the street cleaner came and cleaned them up.

Some fell among concert and theatre programs, and the people being interested in the performance and not in bargains, they were left on the seats or crumpled and thrown on the floor.

And some fell among fake schemes and gift enterprises, and popular contempt sprang up and choked them.

But some fell into legitimate newspapers, which found their way into the homes of the people who had time to read them, and they brought forth fruit, some one hundred fold, some sixty fold, and some thirty fold.

Excursion to Yellowstone Park.

An extensive trip to the Yellowstone Park has been arranged by the American Tourist Association of which Ross Campbell is general manager. Many people of the vicinity are going as the itinerary is leisurely and there are such long stops at all points of interest that the traveler will be able to make extended explorations of such places as Pike's Peak and Garden of Gods in Colorado. The itinerary of the tour includes a visit to the unique Salt Lake City, and long ride in sight of the Rocky Mountains. Then some features that have made these tours so popular will be prominent this year. There will be utmost privacy for small parties in the Pullman sleeping and dining cars and all the drives will be for the benefit and exclusive use of the tourists. The members of the Association have arranged for a tour of Alaska, and if individual members of the Yellowstone party desire to continue further north the trip will be incorporated in the itinerary. The cost of tickets for these tours will include all expenses everywhere. For full particulars address A. A. Gallagher, D. P. A., 408 Vine St., Cincinnati, O.

First American Marriage at Cebu.

A romance has ended in the first American marriage celebrated at Cebu. It was the wedding of Mrs. Marion Jorgensen, of Chicago, and Lieutenant Cromwell Stacey, of the Ninth United States Infantry. The marriage was celebrated in the presence of all the army and navy officials, with their wives and daughters. They were sweethearts in New York. He went to the war, she moved to Chicago, and married, only to be widowed. In the Philippines Lieut. Stacey proved himself a hero, and the girl's love awoke. She wrote to him. The Lieutenant's reply was immediate. They wrote again and again. Photographs were exchanged, and finally came the letter asking her to be a real soldier's bride. "Cable your reply," begged the impatient warrior. And over the seas went a "Yes" that sent him into the seventh heaven.

Good Roads Convention.

The third Kentucky Good Roads Convention met in Owensboro. The attendance was over 2,000. A temporary organization was effected, with Mr. Thomas Pettit as chairman and Mr. La Vega Clements as secretary. The temporary organization will be made permanent. The visitors were entertained with a barbecue.

Japan Gone to War.

Japan has gone to war again. While the government gives out what it deems to be a just cause, the fact in the case is that they are squabbling and fighting because that Imperial Japanese Troupe, the pride of all Japan, has just come over to this country and will give free exhibitions at the Lexington Horse Show, Fair and Carnival, August 12-17. Juggling, balancing, wire walking, screen dancing, etc., (about 20 specialties in all), forming one of the most interesting exhibitions, and it is concluded by a most sensational "Slide for Life Act."

Aged Negroes.

Mahalia Mercer, an aged colored woman of Lebanon, Ky., probably the oldest person in the county, died Tuesday. She is said to have been 109 years old.
Aunt Mahalia, as she was called, remembered that in her childhood, when she was a slave of the Chandler family, she was taken by them to Lexington on the occasion of Lafayette's visit to that city, and that there she saw the General, of whose appearance she retained a distinct recollection.

Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That is why the most important function of the body is the menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kan.: "I have suffered untold pain in menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything. In fact was miserable. I have taken four bottles of Wine of Cardui, with Theodore's Black Draught, when needed, and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me."

For advice in cases requiring special directions, address, giving name, age, and address, to the Wine of Cardui Medical Company, Chattanooga, Tenn.

State Election Commission.

A meeting of the State Election Commission will be held in Frankfort Monday, July 29. The members of the Commission will be sworn in and a secretary will be elected. The Commission will determine whether the old election officers of Menefee county or new ones to be selected shall hold a local option election in August.

POWELL COUNTY ITEMS.

Miss Lura Hanks, the handsome daughter of Mr. and Mrs. W. J. Hanks, of near Bowen, was married on the 10th to Dr. Morton Forkner, Judge G. M. Derickson officiating.

At a meeting of the School Board, Prof. D. A. Thomson, of Clay City, was elected Principal of the Stanton Graded School. Mr. Thomson is one of the foremost educators of this section of the State, possessing as he does excellent qualifications and high character.

In the biennial report of the State Auditor to the General Assembly, now in course of preparation, will be a tabulated statement showing that the taxes due on individual deposits in the banks of the State which the depositors failed to list with the County Assessors for the years 1900 and 1901 amount to the enormous sum of \$578,984.04. This is due on deposits, not assessed, amounting to \$121,797,168.

In an interview in St. Louis, William J. Bryan gave out the statement, with reference to the Ohio Democratic Convention ignoring him and the Chicago and Kansas City platforms, that he intended to fight to the bitter end every effort to force the abandonment of those platforms.

For Governor.

Daniel Lamont is being talked of by Democrats for Governor of New York, and recent visits to his country home by David B. Hill have strengthened this talk.

Poison Oak Poison Ivy BOTANICAL REPTILES

Their Sting Sets the Skin on Fire and Fills the Veins with a Violent, Lingering Poison

These plants seem to partake of the nature and character of the serpent; in winter time being comparatively harmless, but when warmed into life by spring and summer heat they become extremely venomous and spiteful, emitting a milky juice that burns and blisters like a fiery acid, producing quick inflammation and painful swelling. Some persons are so susceptible to these vegetable poisons that coming in their vicinity will produce almost as much discomfort and pain as handling them; their thin and sensitive skins seem to absorb from the surrounding atmosphere the acrid juices emanating from these plants. There is seldom a picnic or family gathering in the woods but that some member of the party comes in contact with Poison Ivy, Oak or some other hurtful plant or weed, and through the open pores the poison is carried to the overheated blood. Poison Ivy is found clinging to tree trunks, fences or rocks, sometimes reaching great heights; the leaves are nearly square in shape, smooth and shiny and three on each stem; the flowers are of a greenish white color, and the berries pale green or white. The Oak is a small shrub, seldom more than three feet high, its size depending upon the nature of the soil, location, etc.; the leaves are long and pointed with saw-like edges and a downy appearance underneath. While the two plants are entirely unlike in appearance, the poisonous effects are very similar. After the swelling subsides the skin remains for a long time in a rough and inflamed condition, dotted here and there with bad looking ulcers and little festering sores. It is truly remarkable with what regularity and certainty the disease returns, and always on schedule time, appearing the same month, day and hour, almost that it did the year before. Don't be deceived should all the signs of the poison vanish soon after the first attack—the acrid juices have been taken through the open skin pores into the blood, and the most persistent and faithful use of external remedies can never dislodge them, and next season, and for years to come, you may expect to endure the same bodily tortures; the blood in the meantime becoming so saturated and charged with the poison that each succeeding attack leaves the body weaker and recovery more uncertain and slow, and thus the once simple malady ends disastrously.

BLOOD SATURATED WITH POISON OAK.
Mr. John Friel, of Bear Station, Del., writes: "I was poisoned with poison oak which went through my blood, and my condition became so serious that the doctors all said I could not get well. I remained in a precarious condition, confined to the house, for six months, when I saw S. S. S. advertised and began its use, soon realizing that it was doing me good. I continued the medicine and was cured entirely. I think it the best blood medicine made."

Returned every spring for 15 years. Mrs. A. M. Bennett, of Toxos, Ga., whose case is similar to thousands of others who in contact with these plants, says: "When eight years old my little brother and I were poisoned by handling poison oak, and it broke out on us every spring for fifteen years. Some one recommended S. S. S., which cured us completely, and we have seen no signs of the eruptions for several seasons."

For every poisonous plant, tree, shrub or flower, native or foreign, which is composed quickly, surely and permanently overcome and drive out of the blood and system the effects of Poison Ivy, Poison Oak, Virginia Creeper, Thunder Weed, Sumac and vegetable poisons of every variety. S. S. S. will be found an invaluable and perfect antidote for poisons of this class. There is never any return of the aggravating symptoms after a course of S. S. S., as it destroys every vestige of the poison.

Don't abandon hope because of repeated failures. State your case to our doctors; we feel sure they can help you. Medical advice will cost you nothing and is strictly confidential. Book on Blood and Skin Diseases free. **SWIFT SPECIFIC CO., Atlanta, Ga.**

Turn Over to Our Visitors.

Be hospitable. When our friends from the visiting cities come to Mt. Sterling, throw open the doors; that is right. But when the doors are thrown open and hospitality is extended, that does not mean that hospitality is to be abused, and should it be done then the friend proves himself unworthy your protection and friendship and places himself in the hands of the law. RELIGIOUS.

Rev. W. J. Bolin preached to a large congregation at Howard's Mill Sunday afternoon.

Twenty members of the party of Epworth Leaguers on their way to the San Francisco Convention were robbed of money, tickets and baggage checks at Colorado Springs.

Rev. John R. Deering, Presiding Elder of the Harrodsburg district will represent the Kentucky Conference at the Economical Methodist Conference at London, England, Sept. 11-21.

A Preacher Kidnaped—Louis Rogers came in from Kane Ridge 13th to meet Elder W. H. Elliott, of Sulphur, Ky., whom he never saw before and who was to preach the next day at Kane Ridge. Prof. Richard Elliot, of Lexington, had just stepped from the train and Mr. Rogers thought he heard the greeting, "Brother Elliott," and immediately took possession of Prof. Elliott and carried him seven miles in the country before either party suspected a case of mistaken identity. After explanations, a hearty laugh, and a night's cordial hospitality, Prof. Elliott was brought back to Paris in time to fill his appointment Sunday morning. Elder Elliott's horse was sick and he missed the train and failed to arrive at Kane Ridge.—Kentuckian Citizen.

The union meeting as per program, will be suspended for next Sunday and Miss Nannie Lee Fraser, of Louisville, Field Secretary of the Kentucky Union Sunday Schools organization, will address the congregation at the Christian Church on State Sunday School work. We understand she is a fine speaker and will present practical, up-to-date methods. Every one interested in Sunday Schools should hear her.

Sunday evening services with the churches in Mt. Sterling during July and August, will occur as follows:

JULY.

Fourth Sunday—Christian Church—D. W. Robertson.

AUGUST.

First Sunday—Methodist Church—W. J. Bolin.

Second Sunday—Baptist Church—H. C. Clark.

Third Sunday—S. Pres. Church—D. W. Robertson.

Fourth Sunday—Jat Pres. Church—John Abbott.

DANCING AND THEATRE GOING.

The following clean-cut utterances on the subject of dancing and theatre going are from Bishop McIlvaine, of Ohio, of the Episcopal Church: "Let me now turn to two subjects in which there is no difficulty of discrimination—the theatre and the dance. The only line I would draw in regard to these is, that of entire exclusion. And yet, my brethren, I am well aware how easy it is for the imagination to array both these in such an abstract and elementary simplicity, so divested of all that gives them their universal character and relish, that no harm can be detected in either. The question is not what we can imagine them to be; but what they actually have been, and will be, and must be, in such a world as this, to render them pleasurable to those who patronize them. Strip them bare, till they stand in the simple innocence to which their defenceless arguments would reduce them, and the world would not have them. If the writer be asked whether in his view, in the pomp and vanities of this wicked world, which are renowned in baptism, are included theatrical amusements and dances, he answers, without hesitation, in the affirmative. If he be asked whether, under the apostles' exhortation, 'Be not conformed to this world,' they are included as matters of worldly conformity to be forsaken, he answers, certainly. If he be asked whether these things are consistent with the cultivation of a spiritual mind and the maintaining a rightful christian influence, by example, for the good of men and the glory of God, he must answer, they are, in his view, very inconsistent with such duties. He thinks they are renowned in baptism, that their renunciation is ratified in confirmation, and professed in every participation in the Lord's supper. He prays that the time will come when all communions will unite in rejecting these things."

At the union service at the Presbyterian Church Sunday evening the music was excellent and the preaching very fine.

DEATHS.

In our last issue we mentioned the death of Spencer Wilson, little son of C. T. Wilson and wife. He survived the operation but a few hours and died on Monday afternoon July 15, 1901. The body was brought to this city on the evening train, and was met at the depot by a large number of friends. The A. O. U. W., of which the father was a member, formed a special escort. The funeral service was held at the Christian Church on Tuesday afternoon at 3:30 o'clock conducted by Revs. H. D. Clark and G. C. Abbott and burial in Macphail Cemetery. Little Spencer, an attractive and sweet child, was in the infant class of the Christian Church Sunday School, taught by Mrs. B. W. Trimble. She speaks in highest of the child. He was attentive, bright, orderly and had never been corrected by her. He is the second one of her class who has died since December 1st. The absence of these dear ones is a great loss to parents, teacher and friends, yet there is the comforting thought that in heaven they await our coming. How bright will that home, how holy and blessed its companionship, how sweet its joys when the trials of this life are over and we go to be with them. In thought and love and life let us live to be with them.

MARRIAGES.

MORRIS-BERRY.

Mr. Charles Morris, a young farmer, of Pleasant Hill, Mo., and Miss Fannie, second daughter of Mr. and Mrs. Jas. S. Berry, of Kansas City, Mo., were married at the bride's home July 3.

IN A SIBERIAN CHURCH.

The Whole Service is Intoned in the Russian Tongue.

The pilgrims happened into one church where the service was going on. The church was full of soldiers and muzhiks, of rich people and poor people, all of whom were devoutly worshipping. A gorgeous priest, clad in green and gold, led the service, and a gorgeous blue and green boy on each side held up the holy candles. In the background one could see a high priest who seemed to be made of solid gold and who seemed to be a part of the large icon hanging on the wall. It was impossible to tell whether he was really a part of the picture or not, so absolutely motionless stood he there, like a graven image, till just at the close of the service he stepped down and out of the picture, and came forward and stood in front of the last part of the service. His robe was all of shimmering gold, which glittered in golden waves as he moved, and he wore on his head a golden mitre such as Aaron might have worn in the days of the wandering in the wilderness. His long curling hair fell over his shoulders, and he looked just as much like a picture out of the frame as he in it. As he stepped to the front, the other priests stood aside, while this gorgeous, golden high priest led the closing service. A boy choir with magnificent voices sang the response. Once the other fathers stepped forward, and one of them removed the jeweled mitre from the golden high priest's head, while he bowed to the icon and crossed himself, and then replaced the mitre.

The whole service was intoned, and while the pilgrims could not understand it, the audience could, for it was in Russian, not in Latin. The people listened very reverently, and often they bowed low and crossed themselves.—Christian Endeavor World.

CARELESS PATRONS.

Loss Considerable Small Change in New York Street Cars.

"Have you any idea how much money is lost in the street cars of this town?" asked a Metropolitan street railway conductor of a New York reporter the other day after he had picked up a dime and stowed it in an inside pocket. "Well, there's a lot of it, and no one knows it better than we conductors. Hunting for coins on the bottom of my car is one of the regular grifts, and any other conductor who has been in the business long enough to get his eyes open is on the same lay."

"Last year I made up my mind to put away every cent I found in my car in an old iron bank I had at home for the length of my youngsters. I kept stowing the coins away and at the end of the year I had \$6.97. Of course, that's not a harmful of money, but it's a right nice pick-up for a conductor. The biggest find I made that year was a 50-cent piece. From that the coins ran all the way down to a cent. In the winter time the pickings are especially good, for then everyone has on gloves, and coins slip from the fingers to the floor without the owner's knowing it. The only way to be sure you have all the money is to pick up the grating on the floor. I do that every night as regularly as I eat my supper."

"Now, I've figured it out that if I find six dollars in one year it's very likely that other conductors average somewhere near that sum, maybe more, maybe less. There are several thousand conductors in Greater New York, so that it's safe to say that at least \$15,000 or \$20,000 is annually dribbled onto the floors of street cars by the passengers. In this estimate I don't include large sums, which are sometimes lost in wallets and purses. A conductor is expected to turn these in at the office, and about all of them do. But the nickels and dimes and quarters are legitimate pickings, and we all have our eyes peeled for them."

SENSITIVE INSTRUMENTS.

Record Messages That Come Through Center of the Earth

Messages may come through the very center of the globe as well as around it, asserts the London Telegraph. The earth is never still. Tremors, pulsations, rises and falls of level are always in progress. After a prolonged investigation of these phenomena in Japan Prof. John Milne has established an observatory at Newport, in the Isle of Wight. The days of violent movement are over for the present in that charming region, but the recording instruments there show constant tremors. Four times on an average every minute the earth "shivers." Delicate apparatus for feeling the earth's pulse indicate the feeblest throbs or beats. The first shivers of an earthquake shock in Alaska, Mexico, Japan or Java has reached Newport before the news came by telegraph. A violent outbreak or quivering takes place, for instance, in Java. Immediately waves of vibration run through the world and round its surface, and at a large number of stations where the sensitive instruments are installed the movement is felt. Other things equal, the rapidity of vibrations depends on the rigidity of the medium through which they are transmitted. In sand a shock traveled 825 feet per second; in solid granite, 1,665. Prof. Milne finds that tremors which have come through the very center of the earth reach him with such velocity as to prove that the earth's interior must be more rigid than a globe of solid iron. So distinct and trustworthy are the indications that when a submarine cable has been broken the professor has been able to say that the interruption was due to seismic disturbance and point to the very spot where it had happened.

The Elks.

The institution of Mt. Sterling Lodge No. 723 B. P. O. E., occurred on last Thursday evening. Some of the business places decorated with the Elks colors and banners waved from homes and business places along the line of march. Lexington and Winchester Lodges were well represented and the initiatory ceremonies were conducted by Esteemed Loyal Knight Broch, Lexington, assisted by the degree teams of Winchester and Lexington. The visiting members were tendered a banquet in the lodge rooms of the Temple building, where pot plants, cut flowers and the Order colors made the room the more beautiful and served an inspiration to the weary Elks.

L. C. Riddell presided the supper; Royal it was.

The speech making was by W. S. Bronston and Wood Dupuis, of Lexington, and Hon. J. M. Benton, of Winchester.

Refreshments were served to those inclined, and it is said they had a royally good time.

Members received into the lodge are as follows:

Jo M. Conroy,	W. A. Sutton,
P. D. Bryan,	J. M. Isola,
J. Will Clay,	R. E. Punch,

William V. Alexander's Success.

The appointment of Mr. William V. Alexander as managing editor of The Ladies' Home Journal is announced. Mr. Alexander went to Philadelphia a little more than three years ago to become Mr. Bok's secretary, which position he continued to fill in addition to attending to his new duties. Going directly from Boston to enter the service of the "Boston Transcript," Mr. Alexander was attached to the staff of that newspaper for more than twenty-one years. During most of that period he was the city editor; and he held that position when he was invited to go to Philadelphia. For some years Mr. Alexander was the President of the Boston Press Club and several other local newspaper organizations, and the Vice President of the International League of Press Clubs.

Escaped Prisoner Captured.

Joseph Spivey, who was arrested three months since, charged with intent to kill, and who made his escape from the Irvine jail, was arrested in Pineville.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's, F. C. Duerson.

An old bachelor says the average woman exaggerates except when she's talking about herself.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble followed by la grippe. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. F. C. Duerson.

A political patriot is a man who loves his country for what he can make out of it.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good health by appetite. F. C. Duerson.

A man wants everything he can get and a woman wants everything she can't get.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Hall's Family Pills are the best.

The only blusterer from which a brave man will take a blow is the wind.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations."

—John Beam, West Middlesex, Pa.
No preparation equals Kodol Dyspepsia Cure as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. F. C. Duerson.

The girl with the biggest patrimony has the best chance for matrimony.

What among human ills are more annoying than piles? The afflictions that prevent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. Tabler's Buckeye Pine Ointment will cure the most obstinate cases, 50c in bottles, tubes 75c.

A man soon forgets his faults when they are known only to himself.

The piles that annoy you so will be quickly and permanently healed if you use DeWitt's Witch Hazel Salve. Beware of worthless counterfeits. F. C. Duerson.

Those famous little pills, "DeWitt's Little Early Risers," couple your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. F. C. Duerson.

Do good for good's sake and seek neither praise nor reward.

Imperfect digestion and assimilation produce disordered condition of the system, which grows and is confirmed by neglect. Herbine gives tone to the stomach, and causes good digestion. Price 80c. Thomas Kennedy.

A dollar unjustly gained can be justly kept.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy, gentle action. F. C. Duerson.

Every man knows worse of himself than he knows of others.

Those who live on fumes are liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is promptly applied. Price 25 and 50 cents. Thomas Kennedy.

Nothing flatters a fool so much as asking his advice.

A bad complexion generally results from inactive liver and bowels. In all such cases DeWitt's Little Early Risers produce gratifying results. F. C. Duerson.

It seems there is small probability of an agreement being reached between France and Great Britain over the Newfoundland question.

To eradicate worms from the system give the child plain, nourishing food and White's Cream Vermifuge. The result will be, the worms will disappear and the child become healthy and cheerful. Price 25c. Thomas Kennedy.

Louisville machinists have received official notice that the strike in that trade at Cincinnati is not over and warning machinists to stay away from that city.

White's Cream Vermifuge no only effectually expels worms, but is unequalled as a tonic, and is certain and permanent cure for Chills and Fever in children. Price 25c. Thomas Kennedy.

Owensboro.

Governor Beekham named Owensboro the place for the annual encampment of the Kentucky State Guard for this year, beginning about August 6.

In some of the Swiss valleys the inhabitants are all afflicted with goitre or "thick neck." Instead of regarding this as a deformity they seem to think it a natural feature of physical development, and tourists passing through the valleys are sometimes jeered by the goitrous inhabitants because they are without this offensive swelling. Thus a form of disease may become so common that it is regarded as a natural and necessary condition of life. It is so, to a large extent, with what are called diseases of women. Every woman suffers more or less from irregularity, debility, debilitating drains, or female weakness, and this suffering is so common and so universal that many women accept it as a condition natural and necessary to their sex. But it is a condition as unnatural as it is unnecessary. The use of Dr. Pierce's Favorite Prescription strengthens the delicate womanly organs and regulates the womanly functions, so that woman is practically delivered from the pain and misery which eat up ten years of her life—between the ages of fifteen and forty-five. "Favorite Prescription" makes weak women strong and sick women well.
